ASMIRA
GROUP

Who is
Asmira Group?

Kingfisher; **Adventurous, persistent and exploratory**

The kingfisher, a determined and adventurous bird of İzmir that can fly hundreds of miles away, take off against the wind, and explore new territories. But its eventual destination, time and time again, is the Aegean...

Legend says, the water is clear where the kingfisher lives, the colorful symbol of seafaring; the emblem of sailors' peace, prosperity, and power... If a kingfisher has taken up residence in a certain place, the water there is pristine...

Since our establishment, we have been working towards becoming a colorful and dominant company that brings prosperity wherever we go, willing to take flight against the wind to do good. Just like the kingfisher, we embrace differences and strive to be a force to be reckoned with on the seas. Although we set sail on new adventures guided by this magnificent bird, our home will always be the Aegean...

Vision

Become local on every European coast.

Mission

Reaching our goals with our continuously developed core competencies and our business philosophy that sets us apart from other companies in the market.

From 1977 to Today

1977

Starting with the acquisition of its first oil tanker, Asmira Group began its ship fuel supply (bunker) operations in İzmir. As a result, Asmira Group became the first company to receive the “port agent” status from Petrol Ofisi.

1982

Acquisition of second sea tanker to increase supply power.

1995

Performing smaller quantited supplies, that cannot be done through sea tankers, by enlarging the road tanker fleet.

From 1977 to Today

2000

First yacht refueling.

2001

Establishment of "Asmira Petrol" subsidiary by creating a new structure in order to carry out marine fuel sales through a dedicated company.

2010

Becoming the leader in the yacht fuel market in Türkiye.

2013

Acquirement of the D-Marin Didim marina fuel station, incorporating the first marina station into operation.

2014

Within the scope of the European Agreement on the Carriage of Dangerous Goods by Road, the entire land tanker fleet was renewed with ADR top profile fuel tankers and transferred to the new subsidiary which was established under the name of "Asmira Logistics".

From 1977 to Today

2015

Becoming one of the leading companies in Türkiye that makes supply with the sample system in compliance with the Marpol Annex VI regulations.

2016

Providing competitive advantage through innovative systems and process management such as organic fight against environmental pollution, automatic bypass systems, hose sheathing system and safety strips etc.

2017

By acquiring D-Marin Turgutreis marina fuel station, making a difference in marina station operations in the region.

2018

Expansion of the naval fleet with the acquisition of the third naval tanker KINGFISHER V. Construction of a new Operations Center in Torbalı to carry out industrial sales and operation activities.

Acquisition the Montenegro Portonovi Marina fuel station to launch the first actual operations abroad.

2019

By acquiring D-Marin Göcek and Kuşadası Setur marina fuel stations, having 4 marina station operations in Turkey.

From 1977 to Today

2020

Beginning of the bunker trade activities in İstanbul.

With the acquisition of Çeşme Marina Lukoil Fuel Station, the number of marine stations increased to 5.

2021

Shaking hands for the Turkish distributorship of Opet Otobil Systems and starting sales across Türkiye.

Opening of the İstanbul Skyland Trade Office physical.

2022

Increasing the number of charter fleet of Asmira Marine to 6 by investing in additional 1 monohull and 1 catamaran boats.

Opening of offices for Asmira Energy Derince and Asmira Marine Göcek.

2023

As part of the restructuring project, Asmira Group companies were organized on a global scale as Asmira Marine, Asmira Energy, Tacklog and Miraka.

2024

With the acquisition of the D-Marin Dalmacija fuel station in Zadar, Croatia, the initiation of the second overseas physical operations begins.

Adding another Bali 4.4 for the 2024 season increases the charter fleet to 7.

The opening of the second gas station in Datça Marmaris.

By starting up the fuel dock operation in Ağanlar Shipyard & Marina, the second Bodrum location is set to make a significant impact in the Gulf of Gökova.

Asmira Energy Activities

Gas Stations
Fuel Wholesale
Wholesale Mineral Oils
Vehicle Identification System
Fuel Transportation and Supply

Gas Stations

Asmira Energy continues its marine station management tradition by renewing and launching a 53-year-old gas station on the Torbalı-Aydın highway under the Asmira Group in 2018. Managed from Torbalı with a sophisticated “hub” feature beyond an ordinary gas station, Asmira Energy creates value with its modern station structure and qualified workforce.

Sustainability is of great importance in all Asmira Group subsidiaries, including Asmira Energy, and directs the development of its projects and investments. In this context, Asmira Energy saves an average of 1,280 trees and prevents 196 tons of carbon emissions annually through the electricity produced from solar energy at the Torbalı station. In addition, the second gas station in Datça Marmaris was opened in 2024.

Fuel Wholesale

Asmira Energy provides services to facilities of all sizes, such as factories, construction sites, and industrial institutions that require fuel, with its expert team and extensive supply network.

By offering solutions that increase operational efficiency and provide cost and time advantages, Asmira Energy creates value by meeting customer demands in the most effective, efficient, and best price-performance manner.

Wholesale Mineral Oils

Asmira Energy combines its wide supply network and strong infrastructure with its experience to meet the mineral oil needs of its stakeholders operating in many sectors, from automotive to maritime.

With a product range of nearly 300 items, it offers high-quality products to its customers without turning down their demands.

Vehicle Identification System

Asmira Energy, as the Opet Autogas Türkiye Distributor in domestic land sales, offers fleet fuel solutions to customers nationwide.

The system, which allows fuel filling without the need for drivers to leave their vehicles, provides cost advantages at every stage of fleet management by offering optimization opportunities through fuel consumption control. In addition to Autogas sales, comprehensive fleet management systems are also offered.

Fuel Transportation and Supply

Asmira Energy, with nearly half a century of experience and reliability in fuel transportation, is getting stronger day by day. The company provides its services at yacht, ship, and land supply points, ensuring "safe and high-quality operations" by taking all the latest measures in compliance with regulations. With its specially trained personnel, experienced driver team, and high-tech marine and land tanker fleets, Asmira Energy offers "safe service" to its customers in line with European standards.

Daily trucking reports ensure close monitoring of vehicles, and error-free service is provided to our stakeholders with the highest level of safety measures taken. With its special pumps that can supply 800 liters per minute and can increase the capacity up to 1,200 liters with cross connections, and its special production technical equipment, Asmira Energy provides uninterrupted service with its truck fleet.

Asmira Energy's liaison office in Aliğa and its high-tech Menemen Ulukent Truck Garage provide quick access to all fuel terminals operating in the region.

With a philosophy of continuously improving its service network and quality, Asmira Energy designs project-based, productivity-enhancing "boutique support services" tailored to its customers' needs and adapts rapidly to evolving business models, technologies, and current trends in its processes and operations. As a reliable solution partner for its customers, Asmira Energy continues to be so today as it has been in the past.
